Internship

Virtual and Augmented Reality Assistant

St. Petersburg College Seminole Campus under the guide of Instructor Chad Mairn.

Virtual Reality Assistant

The Imagine Museum of St. Petersburg under the guide of VR Coordinator Kurdt Allan.

I participated in a dual internship program that lasted 4 months between St. Petersburg College Seminole and The Imagine Museum of St. Petersburg. Our main project was interviewing and assisting 5 veterans with a virtual reality design that was done using VR modeling software. Which we then took to SPC where we 3D printed what the veterans had designed in VR. Their printed designs then went on display at the museum for a limited time main gallery showing. The gallery display was supported by a full museum attendance, live music, catered food, and coverage by local news stations.

Qualifications

An idea of some work qualities possessed, and an estimation of time spent so far gathering these qualities. The thought is to add more as I grow and expand my capabilities through practice and continuous hard work.
